

## Section: Narratives - Needs Assessment

### Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three- part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

**Section 1 - Needs Assessment:** In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

### Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

Building principals analyzed student grades, attendance, elementary benchmarking performance (we use Study Island), progress monitoring for IEP students, course credits attempted/completed data using student information system. Number of extra-curricular activity

participants, comparison data from aggregate years prior to COVID pandemic were analyzed to establish effects of the pandemic on student involvement in extra programming. Principals used data to identify students in need of mandatory summer school programming and Extended-School Year summer programming.

**Section: Narratives - Summer School Program Questions**

**Summer School Program Questions:** In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

- 2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children from Low-Income Families	Academic Growth	80	Course success rate in summer school program. Number of credits attempted and passed/high school. Close gaps in reading level and math level at the elementary school based on benchmarking data.

- 3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

SASD will fund Mandatory Summer School for grades 1-12 in the summer of 2022, 2023, and 2024 at the elementary and junior-senior high school. This program will target credit-recovery through the employment of SASD teachers to push students towards recovering deficient credits and progress toward graduation/promotion due to learning loss during the COVID-19 pandemic. SASD will track retentions and credit recovery success of the program. Program piloted in 2021 with much success. Cost of Mandatory Summer School will be \$71,937 for three years. Plan will be to use \$29,866.00 of ESSER set-aside to augment additional teachers toward this program with teacher and aide support.

- 4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
5	Internal Provider	Teachers
5	Internal Provider	Para-professionals

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
Course completion of attempted credits at the high school	End of course	Expected success rate of 95% of students enrolled in high school mandatory summer school will be successful by earning a 65% or better on the credit recovery courses.
Benchmarking for Elementary Students in Reading and Math	Beginning and end-of-summer session benchmarking	Expected that students enrolled in elementary school mandatory summer school will improve benchmarking data by two levels through the duration of the summer school program

6. How will the LEA engage families in the summer school program?

Principals will use data to begin to identify students to invite to summer sessions in early April. Retention meetings will be held in the second week of June with students and families who must attend summer school to move up grade level or achieve a passing course. Individual

contacts will be made with families to explain the summer school programs.

**Section: Budget - Instruction Expenditures**

Instruction Expenditures

**Budget**  
 \$29,866.00  
**Allocation**  
 \$29,866.00

**Budget Over(Under) Allocation**  
 \$0.00

Budget Summary

Function	Object	Amount	Description
1400 - Other Instructional Programs – Elementary / Secondary	100 - Salaries	\$25,420.00	SUMMER SCHOOL TEACHER & AIDE WAGES
1400 - Other Instructional Programs – Elementary / Secondary	200 - Benefits	\$4,446.00	SUMMER SCHOOL TEACHER 7 AIDE BENEFITS - FICA & RETIREMENT
		<b>\$29,866.00</b>	

**Section: Budget - Support and Non-Instructional Expenditures**

Support and Non-Instructional Expenditures

**Budget**  
\$29,866.00  
**Allocation**  
\$29,866.00
